

MAPESHAPE™

Magellan Health Services in Maryland Heights, Missouri

FORMED EDGE PANELS

MapeShape panels have formed edges that can be glazed into standard 1" glazing channels with panel thicknesses up to 4". The panels are designed to create a flush appearance with the wall surface and framing. Butt joint panels are also available to eliminate exterior mullions in some spandrel, curtain wall and window applications. Formed corner panels can eliminate the need for framing or molding at corner transitions.

APPLICATIONS

- Flush Curtain Wall / Window
- Thermal Retrofit
- Insulated High Tech Profiles
- Butt Glazing

FEATURES

- Fits into 1" Glazing Pocket
- Reduce Framing Mullions
- Provides Flush Surface Interior or Exterior
- Formed Corners and Edges
- Pan-in-Pan Options
- Butt / Structural Glazing
